

SETTING UP IN BUSINESS?

It pays to talk to a professional accountant!

KERRACCOUNTANCY

START-UP BUSINESSES

Our knowledge and expertise have helped business owners, like you, avoid many costly pitfalls when first starting up; and we continue to save them money in the long term too.

Did you know? Research shows that only four in ten UK-based start-ups survive their first five years in business. And worryingly, Glasgow is ranked among the bottom five towns or cities for start-up survival rates.

Improve the chances of your new business succeeding and get in touch with Kerr Accountancy for help and advice.

WE CAN HELP YOU AVOID SOME OF THE COMMON MISTAKES BY:

- Helping you develop your business plan.
 - Helping you choose the best business entity (sole trader, limited company, limited partnership, etc.)
 - Establishing efficient bookkeeping systems.
 - Advising on your borrowing to ensure it is cost-effective.
 - Recommending payment options for acquiring any essential fixed assets (e.g. office furniture, equipment, vehicles, etc.).
 - Figuring out your tax responsibilities and planning your deductions.
 - Advising on tax-efficient remuneration.
- ... and more.
